

Reflections and CPD

Reflections is a staff-only space within Tapestry that allows you to share and listen to discussions, enhancing staff wellbeing and professional development. Tapestry also has a free CPD area, with interactive courses containing quizzes, written tasks, and opportunities for self-reflection.

Memos and Documents

Use Memos to reliably message parents, carers and staff. Send newsletters, documents and media to specific relatives.

Upload Word, Excel, PDF, or .txt files to the Documents area within Tapestry. Create a library of useful information for staff and relatives.

Assessment

Capture evidence of learning, locate gaps and record pupil achievements across the National Curriculum to tailor your planning to each pupil's needs. Tapestry has frameworks for monitoring up to Year 6, with SEND options available, as well as the option to add your own framework.

Child Login

Encourage independent learning with access for each child to their own learning journal. Children can record, reflect on and respond to activities and feedback.

TAPESTRY

*An all round
solution for
KSI and 2*

Additional Needs Provision

Compatible with the Engagement Model, Tapestry also has the unique Cherry Garden framework to support children with learning differences.

Alternatively, you can add your own bespoke framework or flag set to Tapestry.

Observations

Create a complete picture of each child by facilitating the sharing of information between educators and families. Include multiple media types, including photos, videos, audio files, PDFs, Word documents and more.

Activites

Provide learning that can be done anywhere. Create, store and send activities for groups of children or an individual child, responding to their learning needs with bespoke adjustments.

Reports

Produce central, downloadable reports with a consistent format throughout the school.

Choose a template based on an existing framework, or create your own using the custom templates functionality.
