Tapestry second in Business Cloud's EdTech 50 ranking

Innovation ranking celebrates UK businesses of all sizes creating technology for education and workplace development

[Tapestry](#), the childhood education platform, has been ranked second in [Business Cloud's EdTech 50](#) which celebrates the innovative UK businesses creating technology for education. Selected from the 104-strong shortlist, the final ranking was decided by a combination of public vote and an expert judging panel*.

This is the fourth year running that Tapestry has been placed in the top three of this influential ranking of leading businesses. Tapestry was co-founded by Helen and Steve Edwards in 2012 and is the original, and leading, childhood education platform, providing an online learning journal and management system for early years settings and primary schools.

In response to the news about the EdTech 50 Steve Edwards said: *"We are constantly developing Tapestry to meet the needs of our customers to help them run their setting or school smoothly and enable them to celebrate, support and engage with children, families and staff. Ranking so highly is a validation of everything we do to enable educators to be as effective as possible in nurseries and schools across the world – we're delighted."*

Jonathan Symcox, editor of BusinessCloud said: *"This year's EdTech 50 showcases how emerging technologies such as AI, immersive platforms and short-form video are being used in schools, higher education and the workplace,"*

"These companies - at all stages of growth - are helping children to improve their maths and English; assisting teachers in the creation of lessons; developing tools to support inclusion, neurodiversity and emotional wellbeing; empowering exam prep and marking; and helping businesses to upskill their workforces. It's a privilege to shine a light on them."

Business Cloud's EdTech 50 judging panel

BusinessCloud called on its readers to vote for companies from the 104-strong shortlist over seven days. A combination of these votes and choices from an expert judging panel determined the top 50.

The judging panel was comprised of:

The judging panel was comprised of:

- Rachel Vecht, founder, Educating Matters
- Dan Sandhu, CEO, Education Development Trust
- Tim Holmes, education, training and human capital M&A, Alvarez & Marsal
- Jonathan Symcox, editor, BusinessCloud

About Tapestry

Tapestry is the original, and leading, childhood education platform, providing an online learning journal and management system for early years settings and primary schools. It helps educators to celebrate children and engage families in mainstream and SEND provision. Tapestry keeps parents and carers in touch with how their child is doing, enables educators to build a picture of each child's development and interests, and provides the tools for the daily running of a setting.

Tapestry is used in more than 40 countries and supports over 14,000 schools and settings - more than any other platform. It was launched in 2012 by the edtech company Foundation Stage Forum and is based in Lewes, UK.

Tapestry is the brainchild of husband and wife team, technologist Steve Edwards and educator Dr Helen Edwards. Both regularly write and speak about education and technology, and they continue to support initiatives like the APPG for Childcare and Early Education.

Tapestry has been shortlisted for the Bett Awards and TeachPrimary Awards and most recently was ranked second in Business Cloud's EdTech 50.
